

EXCURSION BY MOTOR YACHT

Every day our crews are available to take you on an extraordinary adventure, discovering the most fascinating coastline in Sardinia. You can choose between the comfortable 16-metres wooden Motor Yacht, where you can have a complete fish-based lunch on board or, if you prefer, the 10-metres maxi RIB that will enable you to bathe on the most beautiful beaches in the Golfo di Orosei. Departures are from Villa Peonia by a mini-van at 8 a.m. During the voyage you will be given information of interest concerning the places visited, such as: l'Isolotto d'Ogliastra, Pedralonga, Grotta dei Colombi, Capo Montesanto, Cala Scirocco e Cala Tramontana. The first stop consists of a visit to the Grotta della Contessa (cave) where a tender will take you to admire the transparency of the water and the bizarre rock forms which are attributed to various prehistoric animals. Our journey continues towards the magnificent scenery which appears as we approach Cala Goloritze', declared a Italian Natural Monument, and which every year sees thousands of enthusiasts scale the majestic needle of rock named Punta Caroddi. Further North awaits the next stop, which will enable you to enjoy the sun and sea of Cala Gabbiani. During your stay on the beach you will be supplied with beach umbrellas and mineral water in coolbags. At 12 o'clock, again by tender, we will take you to the Spiaggia degli Innamorati where you can plunge into the famous spring water: "drawn towards the sea, rich streams of sweet water flow deep into the sea." At 1 o'clock you have an appointment at 'Cala la Pasta' where the crew will serve lunch based on fresh local fish, enhanced by one of our excellent wines. After coffee, we depart for Cala Mariolu and a two-hour stop to relax and spend time discovering this wonderful beach. At 4 o'clock, again you will board the tender, this time to marvel at the colours of the Grotta Turchese (cave) that ends the itinerary of Helios V and her crew. And so we begin our return trip. On board there are some who are committed to getting a tan on the flybridge, others who prefer to stay in the shade instead, but we are all happy to have spent a fabulous day with our accomplicethe sea of Sardinia. Expected return to Arbatax port will be at around 6.30 p.m.
